

Today world , quality systems is not an option , it is a necessity .

We have targeted our slogan , 'FIRST THE QUALITY ' and established the system on ISO 9001 basis , and beggining of 2005 we have been awarded with ISO 9001-2000 certificate by TÜV – Rheinland Group.

From the first material income to all supplier shipments controlled by quality check department in order to give a continuing quality to our costumers.

All productions , First Samples , or regular productions constatly checked with a control plan .

Finishing control is very importan for us as visual and dimensional .

Also we now ; for our costumers how much the packing is important , that is why we have extra last control for packing specifications.

In order to make ON-TIME deliveries all production and logisitcs are controled by ERP –MRP Software .

All parts has 3D detailed drawings as well as PPAP files for our OEM costumers , which is prepared with ISO/TS 16949 standart.

Hobi has already started establishing ISO/TS 16949 system , for sure we will get in very soo
